6/9/15

Dear Parents,

For the 2015-16 school year, St. William School strongly suggests that every child have a physical and dental check-up. These annual visits should be a part of your family's general health routine. Especially if your child is active in sports, whether it's at St. William School, or an outside agency, your child should pass a routine physical exam before playing. It's for their own safety.

Please find the necessary medical forms for your child for the 2015-16 school year on our website. [www.stwilliamschool.org](http://www.stwilliamschool.org) Or stop by the school office.

The State of Illinois requires that all **students entering school for the first time, as well as all kindergarten and sixth grade students**, have a physical examination before being admitted to class at the beginning of the school year. In addition, the school must be provided with an immunization record that is in compliance with current state requirements.

**Children who do not comply in a timely manner WILL BE EXCLUDED from school as of October 15th until proof of immunization and physical examination have been supplied.**

The State of Illinois requires that **all students entering kindergarten are required to have a vision examination** by a qualified professional (optometrist, ophthalmologist).

Students entering **kindergarten, second, and sixth grade must provide the school with proof of having a dental examination.**

Please schedule your physical exams as soon as possible to avoid exclusion from school. Usually, doctors only have physical exams scheduled one to two days a week, so they fill up quickly in the summer months.

See you August 20<sup>th</sup>! Have a blessed and safe summer.

For Our Children,

Principal
