

8/1/2021

Dear Saint William School Families,

All Saint William School students must submit proof of a current physical examination by a licensed doctor, or nurse practitioner, along with proof that required school vaccinations are up to date.

The necessary forms are included in this folder and can also be found on the school website under the parents tab, in the new school year information section.

Any child who has not submitted proof of examination and vaccination form will be excluded from daily attendance beginning October 15. Once the necessary doctor visit and proof of vaccination is submitted the child may return to class. **Please note, the required vaccinations are those typical for all children and are not related to COVID-19**

The State of Illinois also requires that **all students entering kindergarten are required to have a vision examination** by a qualified professional (optometrist, ophthalmologist). Proof of a vision examination must be submitted by March 1, 2022. Any kindergarten student who has not submitted proof of the exam will be excluded from daily attendance. Once the required exam is complete the child may return to class.

Students entering kindergarten, second, and sixth grade must provide the school with proof of having a dental examination. Proof of a dental examination must be submitted by March 1, 2022. Any kindergarten, second or sixth grade student who has not submitted proof of the exam will be excluded from daily attendance. Once the required exam is complete the child may return to class.

Peace,
Nancy Zver

Principal
